Dear Principal,

This letter is to express my keen interest in applying for a suitable position in your organization. I have multidirectional education and work experience directly related to IT sector. That's why I strongly believe I can undoubtedly bring a valuable contribution to your firm.

Firstly, I have a Quality Assurance mindset. I have more than 5 years of overall experience in QA of Forensic Science in a laboratory environment. My experience in accurately examining official documents includes writing test plans, test cases, expertise reports. I analyze and evaluate test results, identifying areas for improvement and implementing solutions to enhance the reliability and effectiveness of the testing process. I am good at improving the timeliness and completeness of results while maintaining the highest quality.

Secondly, I have IT educational background. Working and studying in the USA for 5 years, I successfully completed Master of Science at Naval Postgraduate Studies in Monterey, California. I had an opportunity to obtain basis of statistics and computer science which really motivated me to get deeper in IT sectors. With this motivation, I did my doctorate in Business Informatics and associate degree in Computer Technologies for the Programme in Web Design-Development and Coding.

As a result of having a QA mindset and IT educational background I realized that being a software test engineer would be a right and final path for me. More than 2 years of experience as an accomplished Software Test Engineer, with a focus on both manual and automated testing, I have a strong background in Agile/Scrum environments and have been involved in all phases of the SDLC and STLC. I am skilled in using a variety of testing tools, including Selenium WebDriver, Selenium Grid, Cucumber-Gherkin, JUnit, TestNG, Karate, Maven, API (POSTMAN, Rest-Assured), CI/CD (Jenkins, AWS), SQL, JDBC, JMeter, and Appium.

I am extremely enthusiastic about the industry of your company and would welcome the opportunity to contribute to the success of your company by maximizing your high-quality software solutions. Thank you for taking the time to read this letter. I also hope you will read my attached resume. I am very interested in pursuing this position. I would love to be a part of your team. I can meet at your convenience for an interview.

Sincerely,

Olcay Er
